Work Safely at Heights

RIIWHHS204E

Staying current on how to be safe when working at heights is an industry expectation. Training Up will get you in and out and back to site quickly and safely.

Course Description

This height safety training course provides the knowledge and skills required to work safely at heights from ground level.

This may include work undertaken on domestic and commercial work sites within new construction, renovation or refurbishment and maintenance.

If you are working in any space where you need to control the risk of falling, the use of Personal Protection Equipment (PPE) and Height Safety Systems, this course is for you!

Course Fees and Payment Plan

The total course fee is \$227.

Fees are due and payable upon enrolment and prior to the training day

RIIWHS204E

Mode of Assessment

The theory component is assessed by means of a written exam.

The practical assessment is completed during the practical training session. Students need to show practical competence on the equipment.

Resources

The Students will need to bring:

- their Unique Student Identifier (USI)
- Photo ID
- PPE - steel cap boots, long pants, long sleeves
- Students under the age of 18 need to complete a parental consent form

Cancellations and Refunds

- If the student's Learning, Literacy and Numeracy (LLN) levels are determined by Training Up to be below the standard required to complete the coursework successfully, Training Up will offer a full refund.
- Cancellation made up to 48 hours prior to the training course: the student will receive a full refund.
- If the student doesn't show up for the training: there will be no refund unless in unusual circumstances f.ex. illness, accident... Training Up may request to see evidence prior to rescheduling.
- If the student reschedules within 48 hours prior the training course: no fees apply. Otherwise, there will be a \$50 rescheduling fee.

Work Safely at Heights

RIIWH5204E

- If a student arrives to the training course late, they will not be allowed to participate and there will be no refund.
- If a student does not bring the required Photo ID or PPE, we may have to reschedule and a \$50 fee will apply.
- If a student does not pass the assessment and requires to attend a second day of training, a \$50 fee will apply.
- For on-site training, all prerequisites must be met or Training Up may reserve the right to cancel the training on the day and cancellation fees of \$50 per student will apply.
- On rare occasions, Training Up may cancel a training course and will notify and reschedule students if this is the case or offer a full refund.

How to enrol

Call **1300 388 787** or send an email to **info@trayn.com.au** and one of our course coordinators will send you an Enrolment Form and confirm your eligibility to the course. Once the required documentation has been received by our team, we will confirm your enrolment status and send you a request for payment. Upon receipt of your payment, you will receive your online login details to your online course component.
